First aid physician for ASL Chiavarese from 2004 to 2007.

Job Related Skills

During last 3 years He performed more than 2500 laparoscopic procedures; endometriosis, endometrial cancer, pelvic organ prolapse represents the main area of interest.

Moreover, He has reached a high experience in robotic surgery, performing more than 500 procedures with three different robotic platforms.

He treats uterine myomas through mini-invasive procedures, both with laparoscopy and robotic surgery. As regards endometriosis, he is focused on nerve sparing technique and on removal of bowel and pelvic disease. He has managed also few cases of diaphragmatic endometriosis.

He is confident with paraaortic and pelvic lymphadenectomy that he performed during surgery for early stage ovarian cancer, either endometrial and cervical cancer.

In last four years He has been increasing his skills in pelvic floor surgery through collaboration with proctology unit. He has reached a number of 400 procedures, including ventral rectopexy (200), colposacropexy, Dubuisson latero-lateral suspension. However, he can manage correction pelvic floor defects also through vaginal surgery.

He has gained experience in single-port laparoscopic surgery, collecting more than 200 procedures. During his experience He faced with emergency obstetrics maneuvers, such as shoulder dystocia, vacuum extraction delivery and cesarean hysterectomy.

EDUCATION AND TRAINING

Training and certification as console surgeon for Versius Robotic Platform

*CMR training center at IRCCS Policlinico San Donato, Milano
December 2024.*

Training and certification as console surgeon for Hugo RAS

*CMR training center at IRCCS Policlinico San Donato, Milano
December 2024.*

Training and certification as console surgeon for Da Vinci Robotic System

2018

Specialization in Gynecology and Obstetrics at University of Genova

*University of Genova (Italy)
11/7/2007*

Graduation in Medicine and Surgery

*University of Genova (Italy)
7/29/2002*

High school Diploma at Liceo Classico "Cristoforo Colombo"

*Genova (Italy)
1995*

PROJECTS

He has participated as relator during following events:

- 2014 "Female pelvic anatomy and surgery course", Crema
- 2014 "89° Congresso Nazionale SIGO", Cagliari
- 2014 "Female pelvis: highlights and imaging" Chiari (BS)
- 2015 "Innovative treatment of symptomatic uterine fibroids", Milan
- 2015 "Video-Surgery course", Catania
- 2015-2016 New technologies in gynecological laparoscopy" Rome
- 2015-2019 Mini-Laparoscopy course in Novara
- 2016 "Locoregional anesthesia in minimally invasive surgery" SIGO congress, ROMA
- 2017 "Advanced laparoscopy course", Cuneo
- 2017 "Minimally invasive surgery course" Novara
- 2017 "Mini-Laparoscopy in gynecology", Rome
- 2017 "Laparoscopic suturing technique", Peschiera del Garda (BS)
- 2019 "Ovarian masses: from diagnosis to management" Bergamo
- 2019 "Video-surgery course in minimally invasive gynecology" Acicastello (CT)
- 2022 "Coloproctology day" Rovigo
- 2023-2024 Masterclass on surgery for pelvic organ prolapse:

COURSES

- Enseal: the new advanced bipolar technology in Gynaecological surgery", 2011 Hamburg-Norderstedt;
- "Gynecologic endoscopy course with workshop", 2012;
- "Endoscopy and Sterility", 2012 Catanzaro;
- "Laparoscopic surgical anatomy of female pelvis in oncology and deep endometriosis" 2012 ad Avellino;
- "Advanced course on abdomino-pelvic laparoscopic surgical anatomy and radical surgery", svoltosi il 7-9 marzo 2013 a Tubingen (Germania);
- "Esagon Theory Sessions" European Institute of Oncology, Svoltosi il 26-27 novembre 2015 a Milano;
- "Theory and practice of different laparoscopic hysterectomy for benign conditions, severe endometriosis and gynecology oncology" 2017 IRCCS Sacro Cuore Don Calabria, Negrar Valpolicella.
- 2019 "Reconstructive surgery for pelvic organ prolapse: comparison of different approaches", Ostia;
- 2019 "Advanced endometriosis laparoscopic course", Avellino;

- 2019 “Theory and practice course on technical skills in endometriosis surgery” Avellino;
- 2022 “Operative hysteroscopy course: Tissue Removal Devices (TRD)”, Napoli;
- 2024 “Theory and Practice course on regenerative surgical technique for vulvar disease” Siracusa;

CONFERENCES

- “Endometriosis and women” November 2015, Padova
- “1° ovarian cancer marathon update: focus on BRCA”, February 2017, Brescia;
- “2nd Meeting on sentinel lymphnode in cervical and endometrial cancer: update and new frontiers”, May 2017, Monza;
- “XIII National Congress SEGI. THE ITALIAN JOB”, June 2018, Avellino.
- “Upgrade in Robotic Gynecological Surgery”, May 2019 Pisa.
- “15th AAGL International Congress on Minimally Invasive Gynecology” in affiliation with SEGI, May 2019, Firenze.
- “XVII National Congress SEGI”, June 2023, Roma.
- “17° AAGL INTERNATIONAL MEETING GYNITALY 2023”, May 2023, Roma;
- “Meet the expert – Endometrial and Ovarian cancer”, May 2024, Milano;
- “Ovarian and Endometrial cancer updates”, May 2024, Bologna;
- “18° AAGL INTERNATIONAL MEETING GYNITALY 2024”, May 2024, Salerno.
- “SEGI 2024”, December 2024, Napoli;
